Assignment submission cover sheet

Student ID:

Cse25-226

Student names:

Martin Botlhe Tshekiso

Student email:

Cse25-226@thuto.bac.ac.bw

Cohort:

2025

Assignment title:

SCIS WMD_2026 AO1

Date of submission:

20 May 2026

Programme of study:

Computer Systems Engineering

Year of study:

Year 1

Intellectual property statement

By checking the box below, i certify that this assignment is my own work and is free from plagiarism. I understand that the assignment may be checked for plagiarism by electronic or other means and may be transferred and stored in a database for the purposes of data-matching to help detect plagiarism. The assignment has not previously been submitted for assessment in any other unit or to any other institution. I have read and understood the Botswana Accountancy College plagiarism guidelines policy.

DTEF Botswana Website

Website Planning & Documentation

Project Overview

The Department of Tertiary Education Financing (DTEF) Website is a government e service portal designed to revolutionize tertiary education sponsorship in Botswana. This comprehensive planning document outlines the website's strategic vision, technical implementation, and operational roadmap.

Project Goals

Processing Time: Reduced from 3-4 months to 14 days average – a 90% improvement

Application Volume: Increased from manual capacity to support thousands of concurrent applications

User Satisfaction: Target of 95% satisfaction rate among applicants

Accessibility: 100% of students can access the platform from any location with internet

System Uptime: Target of 99.9% uptime ensuring the platform is always available

Support Response Time: Email support responds within 24 hours; live chat available during business hours

GOALS ON STUDENTS

Increased Access: Students from all regions of Botswana can now apply for sponsorship

Faster Decisions: Students receive sponsorship decisions in time to meet enrollment deadlines

Reduced Stress: Transparent tracking and responsive support reduce anxiety about the application process

Better Information: Comprehensive resources provide answers to questions without waiting

Equal Opportunity: Geographic location no longer determines access to sponsorship

GOALS ON DTEF

Improved Efficiency: Staff productivity increased through automation and digital workflows

Cost Reduction: Operational costs reduced through elimination of paper-based processes

Better Data: Centralized digital records enable better analysis and reporting

Enhanced Accountability: Transparent tracking creates audit trail of all decisions

Scalability: System can handle growth without proportional increase in staffing

GOALS ON BATSWANA

Educational Access: More students can access tertiary education

Equity: Sponsorship opportunities distributed equitably across all regions

Economic Development: More educated workforce supports economic growth

Digital Leadership: DTEF demonstrates government commitment to digital transformation

National Development: Supports achievement of national education and development goals

Website Specifications

Website Purpose & Objectives

Primary Purpose:

Provide a centralized digital platform for tertiary education sponsorship applications and management

Secondary Purposes:

- Educate students about sponsorship programs
- Provide transparent application tracking
- Offer comprehensive support resources
- Enable efficient staff administration
- Collect and analyze application data

Target Audience

Student Applicants

- Age: 16-35 years old
- Education: Secondary school graduates, tertiary students
- Location: All regions of Botswana (urban and rural)
- Technical Skill: Moderate to high
- Internet Access: Moderate (improving)

Rural/Underserved Students

- Age: 18-30 years old
- Education: Secondary school graduates
- Location: Rural areas, remote regions
- Technical Skill: Low to moderate
- Internet Access: Limited but improving

Parents/Guardians

- Age: 40-65 years old
- Education: Varies
- Location: All regions
- Technical Skill: Low to moderate
- Internet Access: Moderate

DTEF Staff

- Age: 25-55 years old

- Education: Tertiary
- Location: Gaborone and regional offices
- Technical Skill: Moderate to high
- Internet Access: Full

Type of website

Core Features:

- Online application system
- Real-time application tracking
- Comprehensive information resources
- FAQ and support section
- Contact and feedback system
- Secure login portal
- Document upload and management
- Email notification system

Pages:

- Home page
- About DTEF
- Apply for Sponsorship
- Application Dashboard
- Requirements & Eligibility
- Support & FAQ

- Contact & Feedback
- Login Portal

Technical Features:

- Responsive design (mobile, tablet, desktop)
- Cross-browser compatibility
- Performance optimization
- Security implementation
- Form validation
- Error handling
- Analytics tracking

Information Design and Taxonomy

Key Features & Functionality

Online Application System

Description: Multi-step form for submitting sponsorship applications

Functionality:

- Personal information collection
- Educational background details
- Financial information
- Document upload (5 documents max, 5MB each)
- Agreement acceptance
- Form validation and error checking

• Auto-save functionality

• Progress tracking

IMPORTANCE: Students can apply from anywhere, anytime

BUSINESS IMPORTANCE: Automated data collection, reduced manual entry

Application Dashboard

Description: Real-time tracking of application status

Functionality:

• Application status display (Submitted, Under Review, Approved, Rejected)

• Timeline view of application progress

• Document management interface

• Notification history

• Quick statistics (total applications, approved, pending)

• Download decision letters

IMPORTANCE: Transparency and peace of mind

BUSINESS ESSENTIAL: Reduced support inquiries, improved satisfaction

Requirements & Eligibility

Description: Clear communication of sponsorship requirements

Functionality:

• Eligibility criteria listing

• Required documents checklist

• Program-specific requirements

• Application deadlines

• FAQ section

• Downloadable guides

IMPORTANCE: Clear understanding of requirements before applying

BUSINESS ESSENTIAL: Reduced invalid applications, improved quality

Support & FAQ

Description: Comprehensive self-service support

Functionality:

• Searchable FAQ database

• Categorized questions

• Collapsible accordion format

• Related articles

• Contact support option

• Feedback mechanism

IMPORTANCE: 24/7 support access, quick answers

BUSINESS IMPORTANCE: Reduced support tickets, improved efficiency

Secure Login System

Description: Dual-portal authentication system

Functionality:

• Email/username login

• Password reset functionality

• Session management

• Account security features

• Role-based access (applicant and admin)

• Activity logging

IMPORTANCE: Secure access to personal information

BUSINESS ESSENTIAL: Data security, audit trail

Notification System

Description: Automated email notifications

Functionality:

•Application confirmation

•Status updates

•Deadline reminders

•Decision notifications

•Support responses

•System announcements

BENEFIT: Stay informed without checking website

BUSINESS BENEFIT: Improved communication, reduced inquiries

Technical Brief

The website was built using basic tools. These are the technologies and software used:

Languages

- HTML for structure
- CSS for design

Software tools

- Visual Studio Code for coding
- Canva for images
- GitHub for hosting and version control

Browser Developer Tools for testing
